GAUTHIER EH&S CONSULTING
Best in Class Service

Who we are

Developing outcome-based solutions designed to enhance EH&S Management Systems and Compliance

A trusted advisor with the expertise to solve the most complex and challenging EH&S Challenges

Message from the CEO

Environmental, Health, & Safety (EH&S) is in our DNA. It is instinctive in how we do business. We understand the specific needs of our clients within their industry, and how they can exceed industry standards. The traditional Days Away from Work, Restricted Duty or Job Transfer (DART) rates are the typical indicators used to measure safety performance. Here at GAUTHIER EH&S CONSULTING, we apply a proprietary leading indicator methodology for achieving best-in-class safety performance.

We are constantly seeking new and innovative ways for reducing safety-related incidents. We use outcome-based solutions to help organizations achieve their EH&S related goals and objectives. Also, we provide ethical and sustainable supply chain management solutions that reduce supply chain disruptions by ensuring materials are sourced through ethical and sustainable means.

We can help optimize your EH&S performance with little to no business disruption. Never settle for sub-par performance, hire us today and see the difference.

Dr. Adam Gauthier
President & CEO

EH&S TRAINING

Our Environmental Health and Safety Management Training is geared to both the C-Suite, Operations Management, and employees.

Each EH&S management training component is presented in a cohort-based system. The integration of management-based training systems are designed to provide a comprehensive and practical approach to EH&S.

We designed our EH&S management training structure on proactive and sustainable business practices designed to ensure compliance and drive continuous improvement.

EH&S Management Training:

- Establishing EH&S Policies
- Setting objectives, targets, and implementation strategies for EH&S performance improvement
- Knowledge and skill-based training on developing effective organizational EH&S systems and standards
- Active leadership communications focused on establishing a safety based culture

EH&S Team-Based Training:

- Preparing and implementing EH&S Management Systems that meet organizational and regulatory standards
- Reviewing and analyzing EH&S performance to ensure company-based objectives and expectations are met
- EH&S plan development, implementation, and management practices
- Best practices for tracking incidents, corrective actions, known and unknown hazards, and near-misses
- Implementing specific leadership driven EH&S Management Standards

Workforce Based Training:

- Hazard Communication
- Ladder Safety
- Fall Protection
- Electrical Safety: Power Lines and Lockout/Tagout
- Machine Guarding
- Personal Protection Equipment (PPE)
- Powered Industrial Trucks - Operators Overview
- Preventing Slips, Trips, and Falls
- Respiratory Protection
- Scaffold Safety Awareness
- Biosafety & Bloodborne Pathogens
- Chemical Safety Training
- Handling and Usage of Refrigerants under EPA Requirements
- Ergonomics Course
- Emergency Response and Fire Safety Training
- Radiation Safety Basic Training
- Confined Space Entry
- Hydrogen Sulfide (HS2) Safety

AND MORE!

Courses can be combined. There are two fee structures, by headcount or flat rate for courses with over sixteen employees.

GAUTHIER EH&S CONSULTING can help your organization develop and deliver best-in-class EH&S Management Systems to ensure compliance and promote best management practices in day-to-day operations.

EH&S Management System Overview

EH&S Policy-based Management Systems are the cornerstone of our services. We deliver outcome-based solutions designed to:

1. Set and formalize expectations
2. Set the criteria for comprehensive and achievable performance
3. Commit to continuous improvement strategies

EH&S Management Systems Include:

1. **Policy Awareness** - Leadership support and commitment to EH&S excellence, at all levels of the organization
2. **Plan** - Evaluate all EH&S related programs to minimize risk
3. **Implementation and Operation** – Organizational resource deployment to exceed EH&S goals and objectives
4. **Review and Measure** – Implement corrective and preventative actions for continuous improvement
5. **Improve** – EH&S program optimization

EH&S Management Systems are grouped into four hazard-based categories:

1. Employee Safety
2. Health and Hygiene
3. Environmental
4. Regulatory Compliance

Regulatory standards are the minimum requirements companies are required to follow. We provide best-in-class practices to achieve world-class outcomes.

GAUTHIER EH&S CONSULTING embraces diversity as a core business value. Our belief is everyone working with GAUTHIER EH&S CONSULTING will be treated equally without regard to their race, color, creed, national origin, or sexual orientation.
